"I can feel that this place is so beautiful, peaceful, and colorful. I'm going to stay here. God will soon understand the true beauty of this forest. Just imagine it like a paradise and you will feel the same like me. Make sure to enjoy your time here, you won't regret it. Currently, staying here and enjoy delicious food. — A note found regarding **Level -108**

### Survival Difficulty: Class Habitable

» Safe

» Sustained Communities

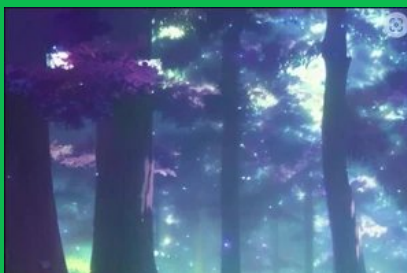

» Devoid of Harmful Entities

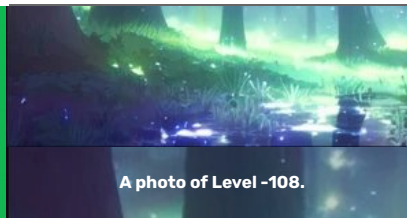

**Level -108** aka "**Candyscape**" is the 109th negative level of The Backrooms.

### Description

**Level -108** is a forest with many tall trees, even more than some rainforests in **The Frontrooms**. Various fruits can be found, usually on some trees or on the ground, and they are safe for consumption. There are lakes that are filled with lukewarm water which will make you feel comfortable when you step in them.

Weirdly, you can also see birds singing on the trees, frogs and some aquatic animals from **The Frontrooms** as well. Pizzas, food and other supplies are all scattered around the level itself.

After some time wandering in this level, one may come across shelters here, but you should select one carefully. If you select a weak one, it might collapse and crush you painfully. Remember that even though this level is habitable, it doesn't save you from danger all the time. This level is also a level that is famous for being a few entrances to **Level 699**, a mythical level that only a few people have discovered.

This level has lots of special anomalies that one should expect during their journey here. When someone arrives, they will notice that this level does not have a proper day-light cycle but instead their visions will become different colors like Red, Yellow, Green, Blue, Purple. ***It is a paradise; you should join it.*** This level is heavily stocked with **Almond Water** and Galactic Slushie, they are all safe to eat, so you shouldn't worry about food poisoning. The temperature here stays at a comfortable 25°C. It is assumed that this level has some connection to **Level -72**, but this is unconfirmed. Unlike **Level -72**, two or more will actually spawn right next to each other.

Lots of entities can be found on this level. However, they are all friendly and willing to help you, they can also speak as well. Most of them are **Facelings**. Hostile entities don't exist here. Even if they manage to get here, they will be mind-controlled to act friendly while they are still in the level.

## Areas

### The Colorful Forest

**The Colorful Forest** resembles the same structure as **Level -108**, but has multiple colors combined instead of random ones. The sun can be seen floating on the sky and sometimes rainbow shine here as well. When wandering far enough into this section, a wooden cabin can be found, entering it will lead you to **Level -188**. There is a small threat

A photo of The Colorful Forest.

here is that if you noclip into any places with them being "black", you will be teleported to a random dark level such as **Level 6**, **Level 19**, etc. There is also a train station somewhere in the forest with a neon-decorated train arriving every 4 hours. Entering the train will send you to **Level 154**.

Unlike the main level, this area actually has a day-light cycle for day being 30 hours and night being 15 hours. The interesting part about this place is that everything is made out of candy, yet everything is consumable. The farther you go into this area, you will start to feel like you want to stay here forever. ***Yes, it is really wonderful, just like a dream. Join us! We will take care of you.*** Here you will have a chance to meet an entity called The Chocolatie. It usually acts friendly to wanderers, but if threatened or disrespected, she will flee from that mean person. ***I try to not abuse violence; it just makes me look worse in others' eyes. Also, I will show you around and when you look worthy enough, I'll take you to my chocolate factory where you can rest and enjoy delicious food made out of chocolate! You deserved it!***

### The Chocolatie Factory

**The Chocolatie Factory** is an area

that you can go to if given permission by The Chocolatie. Just like **The Colorful Forest**, obviously, everything is made out of candy. This second consists of a large grassland area with candy cane trees, chocolate river and electric lights. You can find various food ranging from candy canes to chocolate bars. ***Yes! As you expected, they are made by my machines and my hands as well. You should try them, they're so good! Oh, and also those candies on the river are octopus! Just kidding, sorry.***

There is also a huge wooden bridge that connects two lands to each other, you can find many intermediate size rooms with working machines scattered around for just one purpose. ***Making chocolate, obviously. Also don't mess up with them, they can cause 1st to 2nd degree burn.*** Most bases of wanderers are here, because they want to research more about this area. This area also has an entrance to the next one, **The Candy Shop**, all you have to do is to ask The Chocolatie that you want to buy some of her products, and she'll take you there.

The Candy Shop

***Since the M.E.G doesn't have much to say, I'll explain this by myself. It's really basic, just my candy shop where I sell souvenirs and candy. It's really beautiful, isn't it? Oh yeah and also don't mind those puppets on the shelves. They are my only friend here, this hell... I sell many different items here, mainly chocolate bars, toys, and drinks. I've also awarded with a medal, pretty cool right?***

***It was such a great time, that many people from different levels come here to buy snacks, that makes me feel enlighten. Some even say that my products and so good, and sometimes tip me money. That cheered me up and have more motivation to live in this hell, whatever it is. I've got the list of things you can buy below.***
